关于第 21 届多相流与管道输运技术国际会议 的举办确认函

波兰弗罗茨瓦夫生命环境大学：

贵校在管道输运与颗粒沉降方面的研究享有广泛的国际声誉，多次承办多相流与管道输运国际会议，有力地推动了行业的信息共享和创新进步。为更好地承前启后，促进新方法新手段与传统管道技术相结合，经过我校流体工程团队与贵校 Sobota 教授团队及国际浆料输运协会的沟通和申请，决定于 2026 年 10 月 19 日~10 月 23 日期间在杭州召开第 21 届多相流与管道输运国际会议，主办方为弗罗茨瓦夫生命环境大学，承办方为浙江理工大学，大会名誉主席为 Sobota 教授，执行主席为朱祖超教授。大会筹办委员会将包括我校朱祖超教师团队、Sobota 教授团队、国际浆料输送协议和中国浆料输送协会代表。会务筹备工作即刻将正式开始，朱祖超教授团队将落实与波方和国际浆料输运协会的沟通细节和具体的会务筹备事宜，我校将全力支持相关工作。

Confirmation Letter on the Hosting of the 21st International Conference on Transport and Sedimentation of Solid Particles

University of Life Sciences in Wrocław:

Your esteemed university boasts an extensive international reputation in the research fields of pipeline transportation and particle sedimentation. Having hosted the International Conference on Transport and Sedimentation of Solid Particles on multiple occasions, your university has effectively facilitated information sharing, innovation, and advancement within the industry. To better build on past achievements and pave the way for future development, as well as to promote the integration of new methods and technologies with traditional pipeline technologies, following deliberations and communications among the Fluid Engineering Team of our university, the research team led by Professor Sobota from your university, and the International Slurry Transportation Association, it has been resolved that the 21st International Conference on Multiphase Flow and Pipeline Transportation will be convened in Hangzhou from October 19 to October 23, 2026.

- The host institution shall be the University of Life Sciences in Wrocław;
- The organizing institution shall be Zhejiang Sci-Tech University;
- Professor Sobota shall serve as the Honorary Chairman of the conference;
- Professor Zhu Zuchao shall serve as the Executive Chairman of the conference.

The Conference Organizing Committee will be composed of representatives from Professor Zhu Zuchao's team of our university, Professor Sobota's team, the International Slurry Transportation Association, and the China Slurry Transportation Association.

The preparatory work for the conference will officially commence immediately. Professor Zhu Zuchao's team will be responsible for implementing the details of communications with the Polish side and the International Slurry Transportation Association, as well as handling specific matters related to conference preparation. Our university will extend its full support to all relevant work.

Signature of Chinese Conference Chairman:

Signature of University President:

Date: October 24, 2025
